**Subject:** 1989 Condent Order - Discussion with Atlantic States Legal Foundation

I received a call back on May 7th from Mr. Samuel Sage in regards to a message I left Atlantic States indicating our desire to petition for termination.

Mr. Sage indicated that he had received a copy of our letter to EPA in late 2006 regarding our petition for closure and had no objection at that time but didn't think that he needed to respond. He stated that he did not object to terminating it. He indicated that their lawyer is Chales Knowan (in Minneapolis) and we should contact him.

*Correct name is Charles Naven - M. Falk*

He asked if we were aware that the other named party, Citizens for a Better Environment, no longer existed? I indicated that we were.

I am currently trying to determine the appropriate person to contact at MPCA and will let you know as soon as I find out.

Please call me if you have any questions.
